

Mandatory Upgrade

v2.1.5.0 Heron > v2.1.6.0

Heron

Adeptio Core v2.1.6.0 Heron

A good practice to have wallet.dat and adeptio.conf backups before doing an update.

is a **mandatory** version. Latest fix for STORADE_EXPIRED. Extra, please take a note that binary names changed!

Adeptio Core v2.1.6.0 Heron

- *New Splash image;
- *Version bump;
- *Added a checkpoints;
- *Reduced spamming in logs for StorADE checking.
- *IPv6 addr don't check IPv4 and vice versa.
- *Binary files now work for multi distributions without requiring to install additional libs.
